

**UPDATE ON RECRUITMENT – ISSUE OF OFFERS OF
APPOINTMENT - 10.04.2015**

As there were many closed holidays in the last week, we could not post an update. We have made some more progress in the issue of Offers of Appointments which we are happy to share with you all. The lists of those candidates to whom we have issued the Offers of Appointments after 27.03.2015 are enclosed at Annexure I, II and III. These lists also contain the names of those candidates who have been allocated to Doordarshan.

2. I am afraid, I have no good news for Marketing PEXs as their postings remain undecided. We have to understand that marketing being a specialized field, various aspects have to be worked out before assigning candidates to different stations and that is what is taking up the time. We would like to assure you that some delay in the issue of Offers to the marketing candidates does not affect their ranking/seniority in any way. We are equally concerned and are following up the matter on daily basis. I hope to receive their postings soon.

3. I, once again, thank all those candidates who have conveyed their appreciation to us through mails/messages/tweets. I also take this opportunity to mention that our young colleagues have heeded our advice of exercising restraint while airing their grievances on social media. We appreciate that.

4. We have diverted some more staff members to the recruitment work so that the process of issue of Offers can be speeded up. However, offers can be issued only to those candidates whose pre-appointment formalities are complete. We would like to receive back more completed PVRs and medical forms so that we can proceed with issue of Offers of Appointment.
